Yealink

Yealink desk phones bring you HD audio and high expandability for great interoperability.

Cisco 8800 Series

The 8800 Series provides an attractive design that's ideal for knowledge workers, administrative staff, managers, and executives. All models have been acoustically enhanced in hardware to deliver the best voice communications experience Cisco has delivered to-date in its IP phones.

Poly Edge E Series

Poly's famous audio and stylish design in a durable, feature rich desk phone. Make hybrid work easy. Built for hot-desking or the home office, these phones pair Poly noise reduction technology with cutting-edge design that brings style and performance to any desktop.

Poly Rove Cordless

We've partnered with Poly to offer high-quality cordless IP phones suitable for use in your business location. Along with wireless convenience, these phones deliver the voice quality and rich feature set that you've come to expect from TPx.

Poly Conference

The Poly conference phone collection is the gold standard for speakerphone technology that delivers the clearest sound to every participant, in every location. Poly innovations allow each conference phone to intelligently adapt to different room environments so everyone can hear and be heard, even when more than one person talks at a time.

Yealink SIP-T33G

4-line entry-level IP desk phone

This high performance IP phone brings a comfortable and clear visual experience for users. Designed with a new powerful chip for improved work efficiency. The features allow the SIP-T33G to be a high-quality but cost-effective classic IP phone that maximizes productivity in both small and large office environments.

Key Features

- 2.4" 320 x 240 pixel color display
- LCD backlight
- 4 line keys
- 12 memory keys (4 pages of 3 keys)
- Dual-port Gigabit Ethernet
- PoE
- Adjustable height

Yealink SIP-T54W

10-line mid-level IP desk phone

Prime Business IP phone, ideal for professionals and managers with moderate call load. Built-in Bluetooth and Wi-Fi technology. USB port allows for drive recording, headset or up to three Yealink EXP50 expansion modules. The Yealink SIP-T54W is a powerful and expandable office phone that delivers desktop efficiency and productivity.

Key Features

- 4.3" 480 x 272pixel color display
- LCD backlight
- 10 line keys
- 27 memory keys (3 pages of 9 keys)
- Dual-port Gigabit Ethernet
- PoE
- Built-in Bluetooth 4.2
- Built-in dual band 2.4G/5G Wi-Fi (802.11a/b/g/n)
- 1 USB 2.0 port
- Adjustable LCD screen
- Expansion module – EXP50 (purchase separately)

Yealink SIP-T57W

Touch Screen premium-level IP phone

Prime Business IP phone for executives and busy managers with heavy call load. Built-in Bluetooth and Wi-Fi wireless technology. USB port allows for drive recording, headset or up to three Yealink EXP50 expansion modules. The Yealink SIP-T57W is a powerful and expandable office phone with touch screen that delivers optimum efficiency.

Key Features

- 7" 800 x 480 capacitive adjustable touch screen
- LCD backlight
- Touch screen
- 29 one-touch DSS keys
- Dual-port Gigabit Ethernet
- PoE
- Built-in Bluetooth 4.2
- Built-in dual band 2.4G/5G Wi-Fi (802.11a/b/g/n)
- 1 USB 2.0 port
- Adjustable LCD screen
- Expansion module – EXP50 (purchase separately)

Yealink EXP50

Expansion module

Color-screen expansion module for Yealink T54W/T57W IP phones. It provides you with a simple user interface and advanced call handling capabilities. The EXP50 is an ideal solution for receptionists, administrative assistants, and contact center workers to monitor contacts and manage a large volume of calls with ease.

Key Features

- 4.3" color display with backlight
- 20 physical keys with dual-color LED indicator
- 3 control keys with illuminated LED for fast page switch for 40 additional keys
- Supports up to 3 modules daisy-chained
- Stand with 2 adjustable angles
- USB port (2.0 compliant) for data in and out
- Programmable for shared line, BLF List, call park, conference, forward, group pickup, group listening

Yealink W76P

Wireless DECT handset

Designed for business use. With excellent battery life and high compatibility, it combines the benefits of wireless communication with the rich business features of Voice-over-IP telephony. Empower users with convenient wireless communication and excellent speech quality. The attractive design features a 2.4" color screen with modern looks.

Key Features

- 400 hours standby time
- 30 hours talk time

- 28 hours talk time
- Bluetooth headset
- Range: 50m indoor/300m outdoor
- Up to 10 handsets per base
- Supports 10 SIP accounts
- 20 simultaneous voice calls
- Repeater
- Vibration
- Bluetooth
- Alarm

Yealink CP925 Conference

For small to medium-sized rooms

A touch-sensitive HD conference phone features a black acoustic fabric impervious to accidental liquid spills and a fingerprint-proof LCD screen. A clear UI interaction page makes it easy to control the meeting. In addition, you can connect CP925 to your mobile device (such as smartphone) via Bluetooth to achieve a hybrid UC meeting. Yealink concentrates on users themselves, giving you an easy, clear, and engaging business conference experience.

Key Features

- 4" capacitive touch screen with optimal HD audio
- Yealink Noise Proof Technology, Smart Noise Filtering
- 20-foot (6-meter) microphone pickup range
- Built-in 6-microphone array for 360-degree voice pickup
- Built-in microphone for noise cancellation
- Full-duplex speakerphone with AEC
- 5-way conference call
- 3-way PSTN conference via Yealink CPN10 (optional)
- Built-in Bluetooth/Wi-Fi
- Power over Ethernet (IEEE 802.3af), class 3
- 1 x USB 2.0 Type-C port
- Supports Yealink Device Management Platform

Yealink CP965 Conference

For medium to large-sized rooms

Based on Android 9.0 system, this is a flagship HD conference phone with powerful voice conferencing features and easy control operation. It features a black acoustic fabric impervious to accidental liquid spills and a fingerprint-proof LCD screen. You can connect CP965 to your mobile device via Bluetooth or USB to achieve a variety of UC hybrid meeting modes. CP965 can also connect with 3 CPs in star shape to realize synchronous sound pickup and playback.

Key Features

- 5" capacitive touch screen with optimal HD audio
- Yealink Noise Proof Technology, Smart Noise Filtering
- 20-foot (6-meter) microphone pickup range
- Built-in 12-microphone array for 360-degree pickup
- Built-in microphone for noise cancellation
- Full-duplex speakerphone with AEC
- 10-way conference call
- Analog PSTN calls via Yealink CPN10 (optional)
- Built-in Bluetooth/Wi-Fi
- Power over Ethernet (IEEE 802.3at), class 4
- 1 USB 2.0 Type A port, 1 x USB 2.0 Type-C port
- Supports DECT wireless expansion mic CPW65
- Supports Yealink Device Management Platform

Yealink CPW65 Wireless Mic

Two expansion mics for the CP965

Solves the bottleneck of sound pickup in large meeting rooms. It comes with a black fabric cover and has water-resistant, grease-resistant, and antifouling properties.

Key Features

- Optima HD voice
- Full duplex technology
- 11-day standby time and 13-hour talk time
- 10-foot (3-meter) 360-degree voice pickup
- Up to 20-meter connection distance with CP965
- Place-and-Charge Charging cradle
- Intuitive capacitive mute buttons
- Capacitive mute touchpad
- Echo cancellation
- DECT Technology

Cisco 8841

10-line IP phone

With the Cisco IP Phone 8841, you can increase personal productivity through an engaging user experience that is both powerful and easy-to-use. This model is ideal for knowledge workers and remote workers across industries and businesses of all sizes.

Key Features

- Up to 10 lines
- Two-port Gigabit Ethernet switch — 10/100/1000
- Dedicated headset port (RJ-9)
- Built-in IEEE 802.3at Power over Ethernet
- Automatic provisioning and setup by TPx

Cisco 8851

10-line IP phone

This business-class collaboration endpoint offers high-fidelity, reliable, and scalable communications for small to large enterprise businesses. Its USB port keeps your smartphone charged and lets you stay connected when you're away from your desk. An optional expansion module simplifies dialing and offers expanded status details.

Key Features

- 5-inch high-resolution widescreen color display
- Up to 10 lines
- Supports up to 2 expansion modules for up to 56 additional keys
- Two-port Gigabit Ethernet switch — 10/100/1000
- Dedicated headset port (RJ-9)
- USB port for headset connectivity/charging mobile devices
- Built-in IEEE 802.3at Power over Ethernet
- Automatic provisioning and setup by TPx

Cisco 8845

10-line HD video IP phone

Are you looking for a combination of reliable voice communications and an entry point to HD video conferencing? The Cisco IP Phone 8845 can deliver all of this and more. It's ideal for knowledge workers, administrative staff, managers, and executives, and is also well suited to shared workspace environments.

Key Features

- 5-inch high-resolution widescreen color display
- Integrated high-definition video camera: supports up to 720p
- Up to 10 lines
- Two-port Gigabit Ethernet switch — 10/100/1000
- Dedicated headset port (RJ-9)
- Built-in IEEE 802.3at Power over Ethernet
- Automatic provisioning and setup by TPx

Cisco 8865

10-line HD video IP phone

This phone is a great fit for small to large businesses seeking advanced, high-quality communications and an affordable entry into HD video communications. It delivers easy-to-use, one-touch collaboration with HD desktop video. Two USB ports help you to keep your mobile devices charged. An optional expansion module simplifies dialing and offers expanded status details.

Key Features

- 5-inch high-resolution widescreen color display
- Integrated high-definition video camera: supports up to 720p
- Up to 10 lines
- Supports up to 3 expansion modules for up to 84 additional keys
- Two-port Gigabit Ethernet switch — 10/100/1000
- Two USB ports for headset connectivity or charging mobile devices
- Built-in IEEE 802.3at Power over Ethernet
- Dedicated headset port (RJ-9) and automatic provisioning/setup by TPx

for 8851

for 8865

Cisco Key Expansion Modules

for 8851 and 8865 models

The Key Expansion Module (KEM) is critical for administrative assistants and others who need to monitor and manage the status of calls beyond each phone's standard capability. It adds 14 physical keys — with access to 14 additional keys using the page keys — for a total of 28 keys. You can connect up to two KEMs to the 8851 and up to three to the 8865. Each comes with a foot stand and all necessary hardware to connect it side-by-side to the base phone.

Key Features

- 3.5-inch graphical (TFT) color display
- 2 menus of 14 entries each, for up to 28 monitored users per KEM
- Illuminated buttons show each user's status
- Articulated display to match the same angle as the phone it is connected to

Poly Edge E220

4-line, entry level IP desk phone with color display. Easy to use and packed with features, the Poly Edge E220 IP desk phone keeps you sounding professional and productive. Bring style to any desktop or reception area with cutting-edge design and stay on track with Poly noise reduction technology.

Key Features

- 2.8-inch color display and unbelievable audio
- 4 line keys
